

User Manual

Welcome to the ScienceForKids User Manual!

The program is made to be easy to use but if you get stuck and want to know more, read this manual for the low down on how to get smart.

Main Screen

The screenshot shows the 'Science for Kids' main screen. It has a light blue background. At the top, the title 'Science for Kids' is centered. Below the title, there are two columns of text. The left column says 'Want to track your completed topic & scores but you don't have an account? Sign Up!' and contains three input fields labeled 'Username:', 'Password:', and 'Re enter password:', each with a placeholder text 'username' or 'password'. Below these fields is a yellow 'Register' button. The right column says 'Want to learn without any strings attached? Just continue as a guest for full access to learning material & end of unit quizzes!' and contains a yellow 'Continue as guest' button. Below this, it says 'Or if you already have an account, Login!' and contains a yellow 'Login' button. A red arrow points from the right towards the 'Continue as guest' button. Two blue arrows originate from the bottom of the screen: one points to the 'Register' button and the other points to the 'Continue as guest' button.

If you wish to save the topics you have completed and the total marks from all the tests, then you should create an account. Simply input your own custom username and personal password but make sure to remember these as there is no current way to retrieve lost usernames or password yet. Maybe try writing it down somewhere where you won't forget or lose sight of it.

If you simply wish to use the program without saving any of your scores click on the Continue as **Guest** button indicated by the arrow in red.

If you have previously registered an account, click the login button to be transferred to the login page pictured below.

Login Screen

The screenshot shows a web browser window titled "Science For Kids". The page has a light blue background. At the top center, the text "Science for Kids" is displayed. Below this, there are two input fields: "Username:" with the placeholder text "username" and "Password:" with the placeholder text "password". Below the password field is a yellow "Login" button. Below the login button is a yellow "Go Back" button. A blue arrow points from the "Go Back" button to the text "forgot password?" in the paragraph below.

If you have previously made an account and remember your username and password enter them into the appropriate boxes above and click the login button, this will transfer you to the screen below where you will select the level at which you wish to study.

In the future there will be a 'forgot password?' option for those of you who have forgotten your password, but right now we have given you unlimited tries at logging in, if you really can't remember your password then we are sorry but you will have to make a new account, click the Go Back button to navigate to the main page pictured above.

Level Of Study

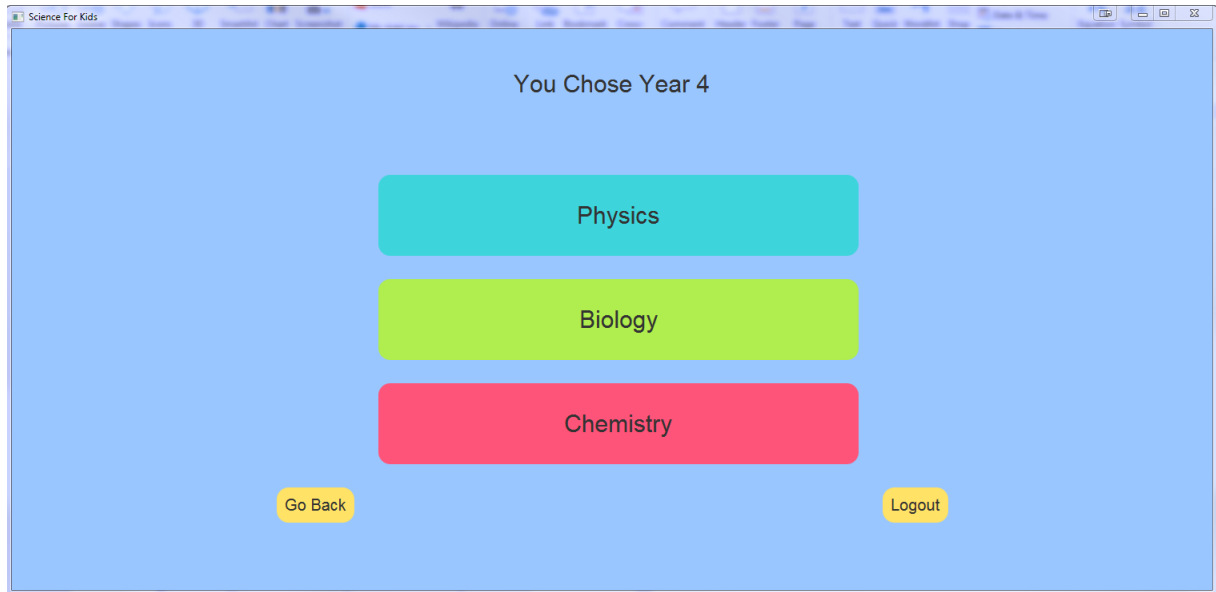

The screenshot shows a web browser window titled "Science For Kids". The page has a light blue background. At the top center, the text "Welcome Example User" is displayed. Below this, there are four yellow buttons arranged horizontally: "Year 4", "Year 5", "Year 6", and "Year 7". In the bottom left corner, there is a yellow "Logout" button. A blue arrow points from the "Logout" button to the text "press the logout button" in the paragraph below.

If you wish to logout at any time, press the ~~logout button~~ that will be located somewhere on your screen, like the one shown in the bottom left hand corner here.

To continue through the program simply press one of the four 'Year' buttons in yellow, these buttons select the level of topics that you feel like learning about today. The buttons will transfer you to the next screen to select which subject you wish to study.

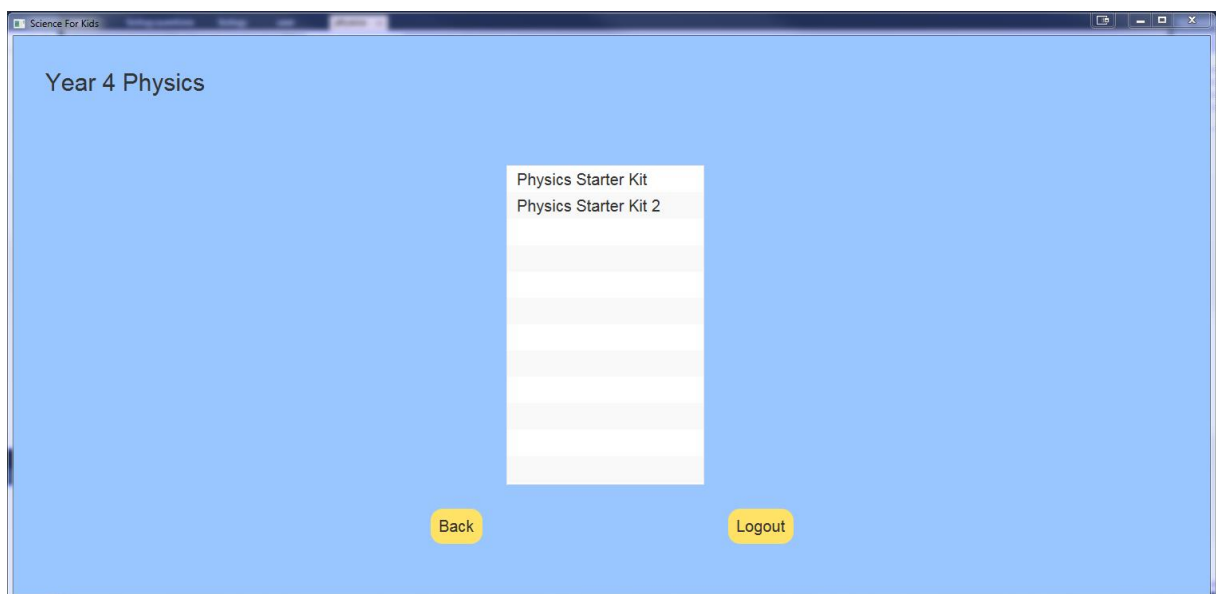

Choosing Subject

Select which subject you wish to study, this transfers you to the screen below where you can select which topic you wish to learn from.

If you want to change your level of study, simply press the 'Go Back' button in the bottom left to reselect a new year.

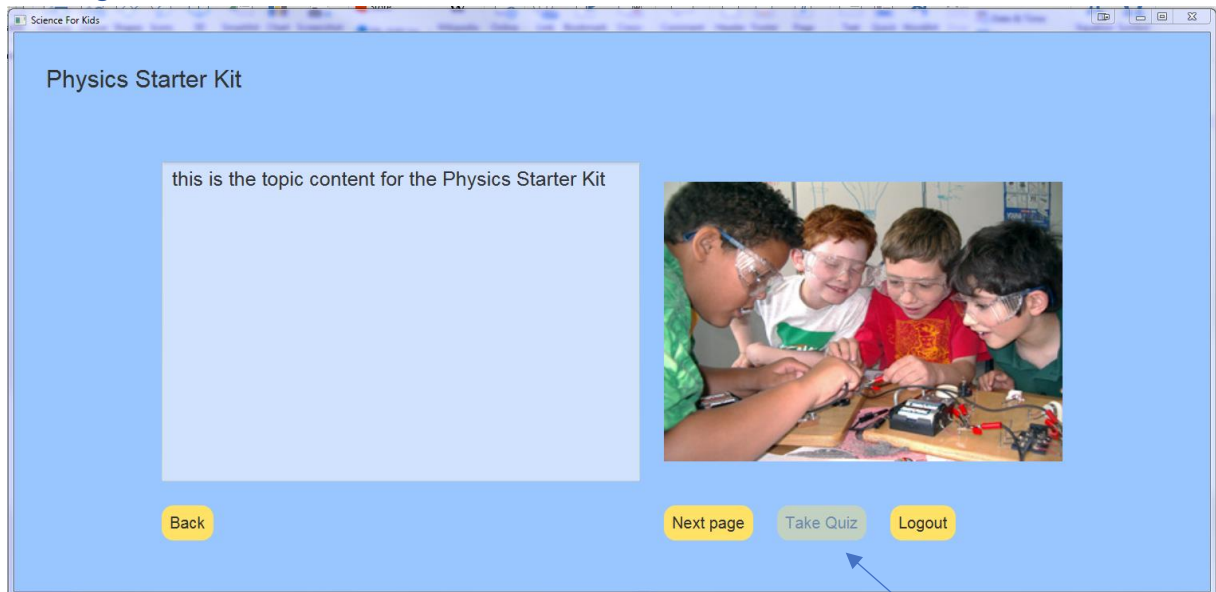

Choosing Topic

Now you can select which topic you want to learn, at the lower levels basic starter kits are available as an introduction into the subject, at higher levels harder topics will be available, as time passes more and more topics will be added to each list so be on the lookout!

Just click on the topic name once and you will be transferred to the screen below which will contain the topics contents.

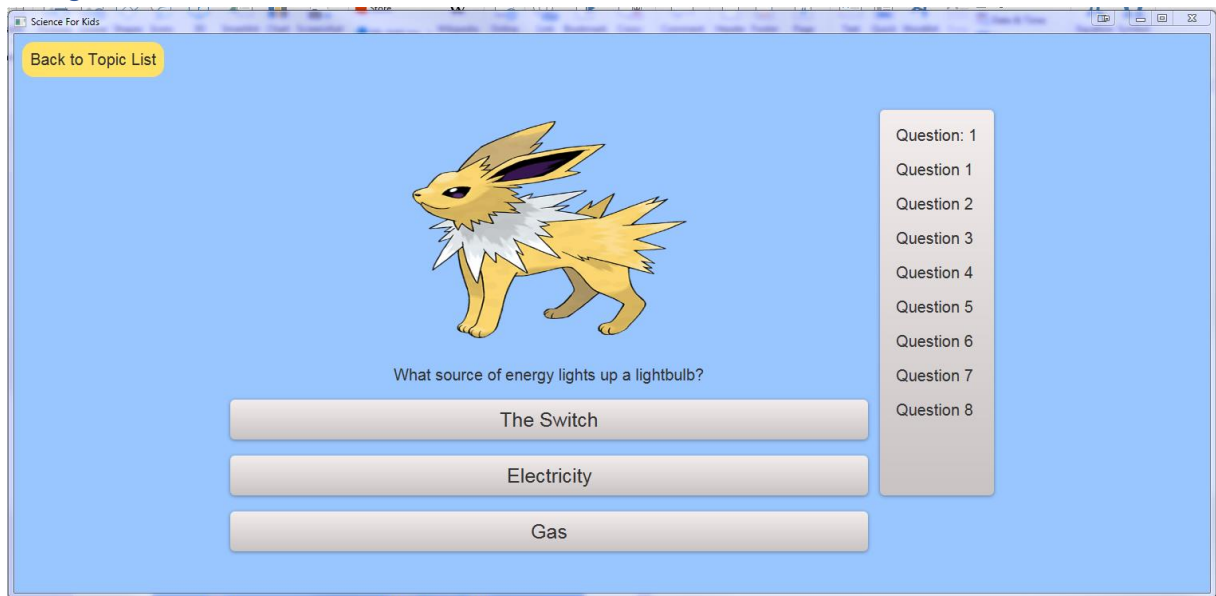

Learning Screen

You've finally got to the most important part of the program, the learning screen, this light blue box will contain the topic contents for your chosen topic, each topic will have multiple pages of contents so once you're done studying one page you can click the Next Page button to see the next page of content.

Once you have studied all available pages of content the 'Take Quiz' button shown here will become clickable, when you feel ready to test your newly learnt knowledge press the Take Quiz Button.

Younger Quiz

This is the screen you will be presented with when taking a quiz if you have chosen a topic from the years 4 to 5, each question will have 3 answers 1 of which is correct, select the correct answer from the buttons.

At the end you will be presented with your score, press the Back To Topic List button in the top left-hand corner afterwards to navigate away from the quiz screen.

Science For Kids

[Back to Topic List](#)

3. Which line on the graph represents the greatest speed?

Select question 3 answer ▼

4. What does a horizontal line on a velocity-time graph represent?

Select question 4 answer ▼

5. Which line on the graph represents the greatest acceleration?

Select question 5 answer ▼

[Mark Questions](#)

If you have selected a topic from the years 6/7 this is the screen you will be presented with, use the scroller on the right-hand side of the page or your mouse wheel to navigate up and down the page.

Read each question carefully and click on the drop-down box to select your answer from a varying list of answers.

For the Mark Questions button to work you will have to have answered all the questions, once you have received your score look to the top-left corner of the page to the Back To Topics List to navigate away from the page.
